

NASOPHARYNGEAL SWABS

Réf : .MT0301

Technical Specifications

Product	Item	Parameter
Sample storage solution	Sample storage tube length	100 mm
	Sample storage tube diameter	16mm
	Sample storage tube length including lid	101mm
	Reagent main components	Hanks, BSA, Amino acid, Bacterial fungal antibiotics
	Reagent volume	3.5ml
	Storage temperature	5°C -25°C
	Valid time	12 months
	Package Size	Each set:70x220mm Each box:270x225x73mm
Nasopharyngeal swab (Flocked)	Length	15.5cm
	Head material	nylon
	Header width	3mm
	Handheld materials	ABS
	Break point from top	80mm ± 2mm
	Storage temperature	5°C -30°C
	Sterilization method	Cobalt 60 Rays Irradiation
	Valid time	3 years
	Package Size	30mmx190mm
