

Product Specification

Item Number	TP-200L-C-F
Item Description	Pipette Tips, 200µl with filter, low retention in box
Size	200µl, with filter
Length	50.5mm
Inner Aperture	16mm
Material	Polypropylene
Filter Material	Ultra high molecular weight polyethylene (UHMWPE)
Status	Dnase/Rnase Free & Sterile
Product Features	<ul style="list-style-type: none"> • Suitable for molecular biology experiment. • Volume is from 0.1 µl to 200µl. • Fit for pipettes from different famous manufacturers. • The pipette tips are made of high molecular material polypropylene without bending. • The pipette tips wall is silicified, and the inner wall is smooth without wall hanging.
Utility Period of Time	2 years from date manufacturer
Storage Condition	Room temperature, keep ventilation and dry, avoid direct sunlight.
